#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-8, 14 and 25-27 are rejected under 35 U.S.C. 102(a) as being anticipated by Adamache et al., U.S. 4,988,389.

Regarding claims 1-8, Adamache et al. discloses in figures 7A-E a production control unit having a subsurface check valve (12) actuated by upward flow and jet pump (4) deployable on a single trip (via 9), a downhole receptacle (10), a sliding sleeve (3) receiving the valve, a flapper valve (col. 19, line 65-68), a pressure sensor (col. 19, line 34-35).

As to claims 14, Adamache et al. discloses a packer (10) and the valve (12) near and above the packer.

Regarding claims 25-27, Adamache et al. discloses a jet pump for utilizing fluid (4), a SSSV for preventing upward flow (col. 19, lines 65-68) and means for delivering (3) the former means.

### ***Allowable Subject Matter***

Claims 16-24 are allowed.

Claims 9-12, 15 and 28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments filed 13 January 2006 have been fully considered but they are not persuasive.

Applicant argues the prior art does not disclose delivery of the jet pump and valve in a single trip. However the jet pump and valve are located in the same production tubing (3) and does not appear to be positionable downhole separately.

Applicant argues the safety valve is not controllable, however the claims require a actuateable valve. The check valve or one-way valve is actuated by flow of fluid and controlled by pressurized fluid to the annulus.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Fly, U.S. 3,155,177 discloses in figure 5 a similar system for producing a fluid having a controllable downhole valve.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3672

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
